

Setya Ramadan

Student at CCIT FTUI

Jakarta | +62 812 8896 8383 | styramadan@email.com

SUMMARY

I am a Cybersecurity student with a strong interest in offensive security, especially Penetration Testing and CTF challenges, I come from a web development background which helps me understand how application work internally and how security issues can arise from logic flaws or misconfiguration. I have experience participating in CTF competitions and also building a foundation in security operations through the CyberOps Associate learning path.

EXPERIENCE

Security Researcher

Independent Security Researcher (Bug Bounty)

- Discovered and responsibly disclosed two validated high-critical web vulnerabilities, including Stored XSS and sensitive information disclosure due to misconfigured application settings. Performed impact analysis and provided remediation recommendations following responsible disclosure practices.

EDUCATION

CEP-CCIT FTUI (2024 - Present)

Bachelor of Information Technology (Cybersecurity) - GPA 3.5

CERTIFICATIONS

- Practical Penetration Testing - Linuxhacking.id
- Junior Penetration Tester - Tryhackme
- Ethical Hacker - Cisco

SKILLS

- Web Penetration Testing
- Networking Fundamentals
- Linux & Windows Environment
- Web Application Development
- Security Monitoring
- Python Basic Scripting
